

```
import java.util.Arrays;

public class PrintArray {

    public static void main(String[] args) {
        int[] a = new int[5];
        Arrays.fill(a, 3);
        System.out.println(a);
        System.out.println(a.toString());
        System.out.println(Arrays.toString(a));

        char[] b = new char[6];
        Arrays.fill(b, 'h');
        System.out.println(b);
        System.out.println(b.toString());
        System.out.println(Arrays.toString(b));
    }
}
```
